We have got what it takes

SK Deep Tech Pvt Ltd

www.skdeeptech.asia
SK Deep Tech Pvt Ltd is a start-up company offering Digital Transformation Training and Consultancy Services in the niche areas like Artificial Intelligence (AI), Machine Learning (ML), Big Data & Analytics, Internet of Things (IoT), Fintech/ Blockchain, Industry 4.0, etc.

SK Deep Tech has tied up with reputed brands in Singapore to exclusively market their products/services in Asia.
ANALYTICA is a Solution-as-a-Service Business Model where organizations need not buy expensive hardware or software and engage consultants to develop reports.

We analyse the Organization’s requirements, develop the reports and host them on our servers and the clients can log on the Analytica’s System and start utilizing the Business Analytics Reports for an affordable monthly fee.

Our solution is cost-effective and scalable as we can quickly deploy as per the business needs.
Center of Deeptech Excellence (CODE)

We help to establish a Center of Deeptech Excellence (CODE) in the Engineering Colleges. We provide the technical know how and expertise to establish the Deeptech Consulting Division for the Colleges.

Students can get the training on latest technologies from their premises with a reasonable cost without effecting their regular schedule by learning on weekends. Colleges can help develop their Consulting Divisions for their students to work on real world projects.

This will be a win-win situation for all - Colleges can earn income from the consulting division, students will work on live projects and local SME’s can get the solutions developed at a reasonable cost.
End-to-End Solutions in Internet of Things (IoT)

**iotica Vertical Focus**

- Healthcare
- Smart Manufacturing
