Guidelines for TLCs

- Work closely with the IQAC cell for improving quality of academic and allied practices
- If possible, make administration of a TLC as a subset of IQAC of the college
- Include IIEECP certified faculty members in the TLC
- Hold monthly meetings with the members of TLC
- Urge IIEECP certified faculty members to practice their learnings in the classes
- Recognize the training needs of faculty members
- Prepare a calendar for an academic year for conducting training & other activities

- Hardwire IQAC and TLC so that TLC will be the implementation wing of IQAC with regard to Lesson Plans and IQAC will measure the effectiveness of TLC activities.
- Create a strong industry mentorship network to empower faculty in guiding student projects aligned with real-world challenges, emerging technologies, and innovation.
- Work towards introducing a PG Diploma in Teaching and Learning to help faculty enhance their teaching skills and adopt innovative educational practices.
